SUMMARY

Highly motivated and detail-oriented software engineer with a strong background in full-stack development, AI integration, and DevOps. Proficient in a range of programming languages, including Python, JavaScript, and C#. Proven track record of delivering high-quality software solutions and collaborating with cross-functional teams.

EDUCATION

INSAT - Institut National des Sciences Appliquées et de Technologie Tunis, Tunisia
Engineering Degree in Computer Software Engineering Sep 2025 – Jun 2028

Higher Institute of Technological Studies of Charguia (ISET Charguia)
Bachelor's Degree in Information Technology – Information Systems Development, GPA: 17.3/20 (4.3/5.0) – Valedictorian Sep 2023 – Jun 2025

EXPERIENCE

Sofrecom Tunisie Feb 2025 – Jun 2025
Software Engineer Intern Les Berges du Lac, Tunis

- Developed an advanced ticketing system using Python, addressing traceability and security gaps.
- Built a full-stack solution with a Spring Boot back-end and an Angular front-end, ensuring scalability and integrity.
- Integrated AI-driven modules for workflow automation and predictive analytics.
- Conducted thorough testing and debugging, collaborating with end-users to refine the system.

TouchDown Apps by Capsule Jan 2024 – Feb 2024
Full Stack Developer Intern Les Berges du Lac, Tunis

- Refactored React components for the NuxApp2 CRM platform, improving code quality and maintainability.
- Implemented state management using Zustand's API.
- Integrated AG Grid for enhanced data visualization and user interaction.

PROJECTS

Veralyze | *Python, FastAPI, Next.js, Supabase, LLMs, Parallel Processing* –

- Built a content verification platform using Python and FastAPI, evaluating text and URLs.
- Engineered a fusion layer for composite verdicts with confidence bounds.
- Implemented a provider fallback strategy for primary provider unavailability.

YouTube Shorts Automation Pipeline | *Python, Ollama, Google Gemini, Edge TTS, OpenAI Whisper, FFmpeg* –

- Engineered a fully automated pipeline using Python and Ollama, generating scripts for Shorts.
- Integrated PRAW for Reddit post scraping and filtering.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C#, SQL
Frameworks: React, Next.js, Angular, NestJS, Spring Boot
Tools: Git, Docker, GitHub Actions
Databases: PostgreSQL, MySQL, MongoDB
